WORK EXPERIENCE

Creative Pixel

Angeles City Pampanga

Production Manager

Jan 2020 - Jan 2022

- Directed daily studio operations, coordinating photography and video shoots to ensure timely and high-quality content production.
- Managed client relationships, addressing project needs and ensuring seamless communication to maintain satisfaction and loyalty.
- Oversaw all administrative tasks, including budgeting, invoicing, and scheduling, ensuring efficient studio workflow and optimal resource allocation.
- Developed and executed analytics-driven content strategies that boosted organic reach by 75%, leading to an impressive rise in monthly prospects and click-through rate (CTR).

Appointmently

Clark City Pampanga

Web Developer

May 2024 - May 2025

- Built and deployed GoHighLevel websites for business owners, directly contributing to an average 40% sales boost.
- Engineered CRM tools that streamlined client operations and drove the increase in sales.
- Developed email marketing functionalities enabling effective client engagement and contributing to sales growth.
- Designed and automated lead generation funnels with optimized workflows, improving conversion rates and follow-up efficiency.
- Integrated calendars, forms, and pipelines to create a seamless customer journey from booking to follow-through.
- Troubleshooted and resolved technical issues across GHL accounts, ensuring smooth operations and minimal downtime.

Trauma Healing Accelerated

GoHighLevel Marketing specialist

May 2025 - Feb 2026

- Orchestrated the complete technical integration of CRM systems, email automation, and cross-platform tools such as Xperiencify, Zapier, WordPress, and Kajabi, increasing operational efficiency by 40% and reducing manual workload for marketing and operations teams.
- Developed comprehensive Standard Operating Procedures (SOPs) aligned with automation strategies that standardized processes across departments, elevating team productivity by 30% and ensuring system consistency across platforms.
- Collaborated with both marketing and operations teams to streamline workflows, improve campaign efficiency, and build high-converting funnels.

Exyt

Automations and System Lead

Nov 2025 - Present

- Architected complex multi-pipeline funnels in GoHighLevel (GHL) with advanced tagging, attribution, and workflow segmentation to drive marketing campaign execution and lead conversion.
- Designed and deployed Zapier automations connecting GHL, [Monday.com](https://www.monday.com), Stripe, and Google Suite, eliminating manual processes and enabling seamless cross-department operations.
- Built and optimized end-to-end system maps across the tech stack, ensuring zero data duplication, high reliability, and scalable workflows for sales, finance, and coaching teams.
- Executed marketing funnels and onboarding campaigns via WordPress and GHL, integrating UTM tracking, pixels, and analytics scripts for precise attribution and reporting accuracy.
- Developed real-time dashboards in GHL, Stripe, and [Monday.com](https://www.monday.com), empowering leadership with visibility into KPIs, subscription health, and automation success rates.
- Led team enablement and onboarding, creating SOPs, training guides, and access hierarchies to ensure smooth adoption of systems and rapid troubleshooting support.
